

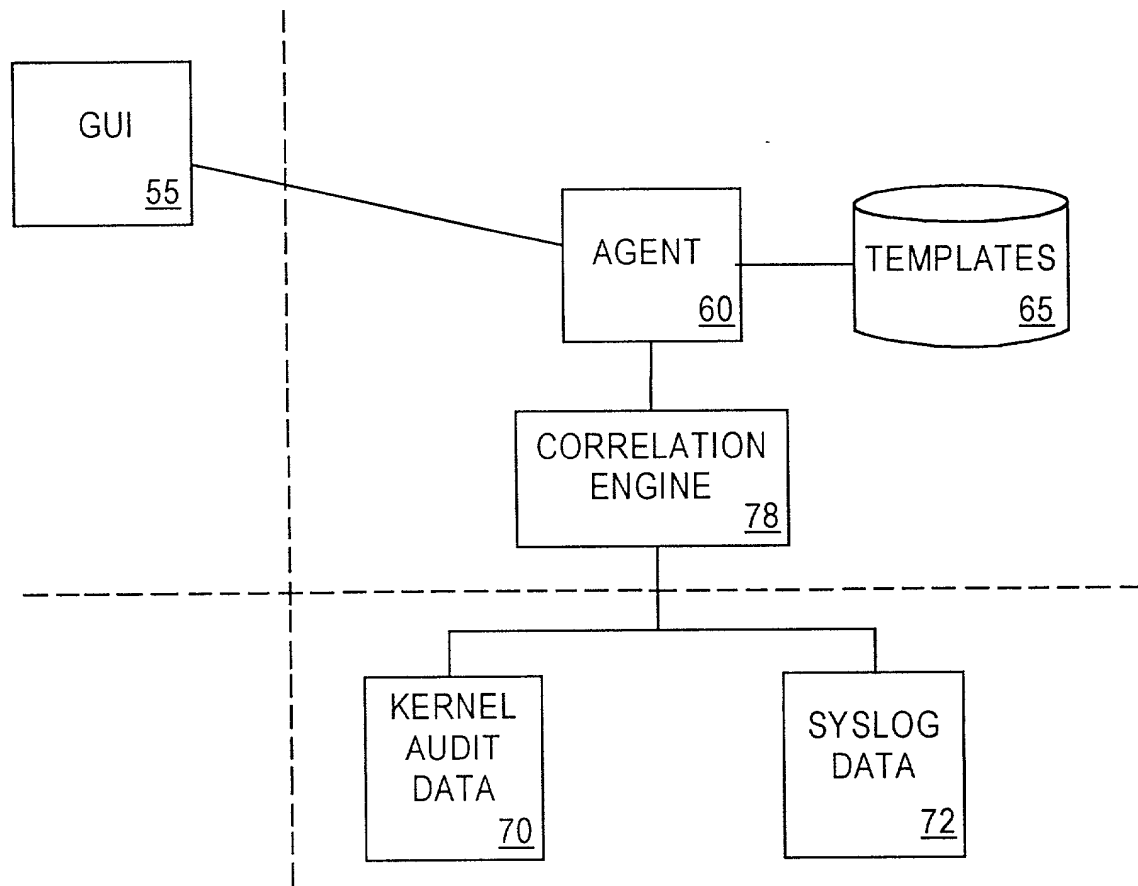

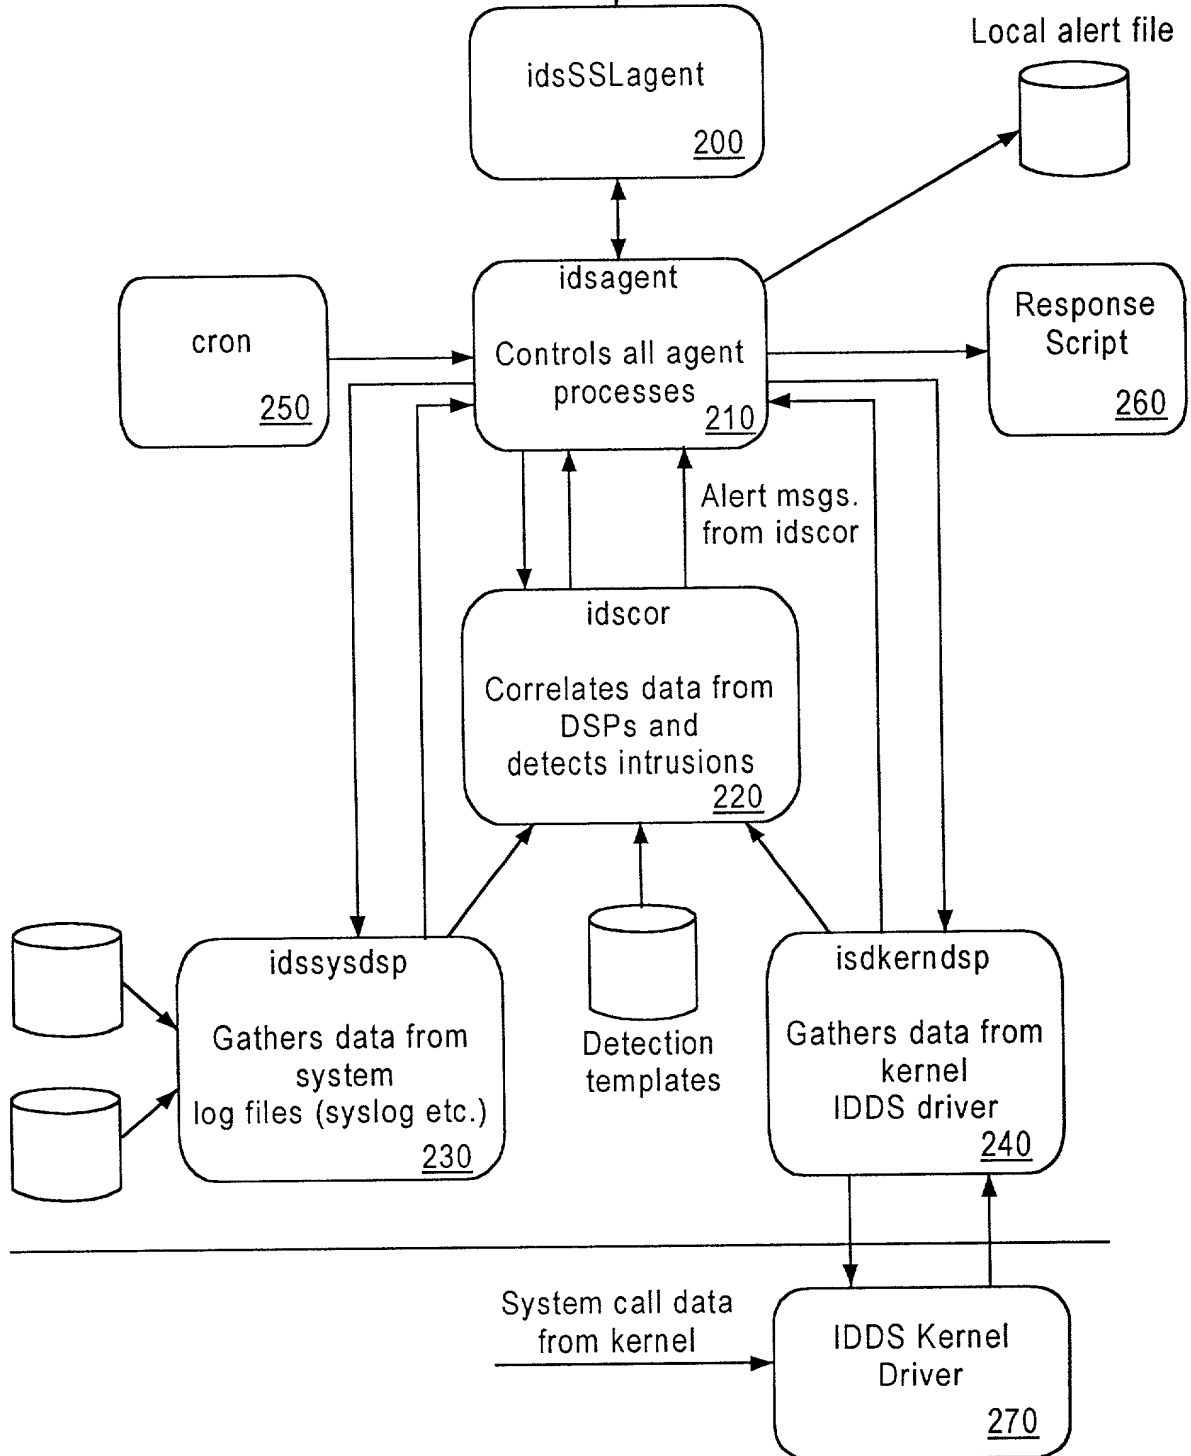

FIG. 1

How do the agent
processes fit together?

FIG. 2

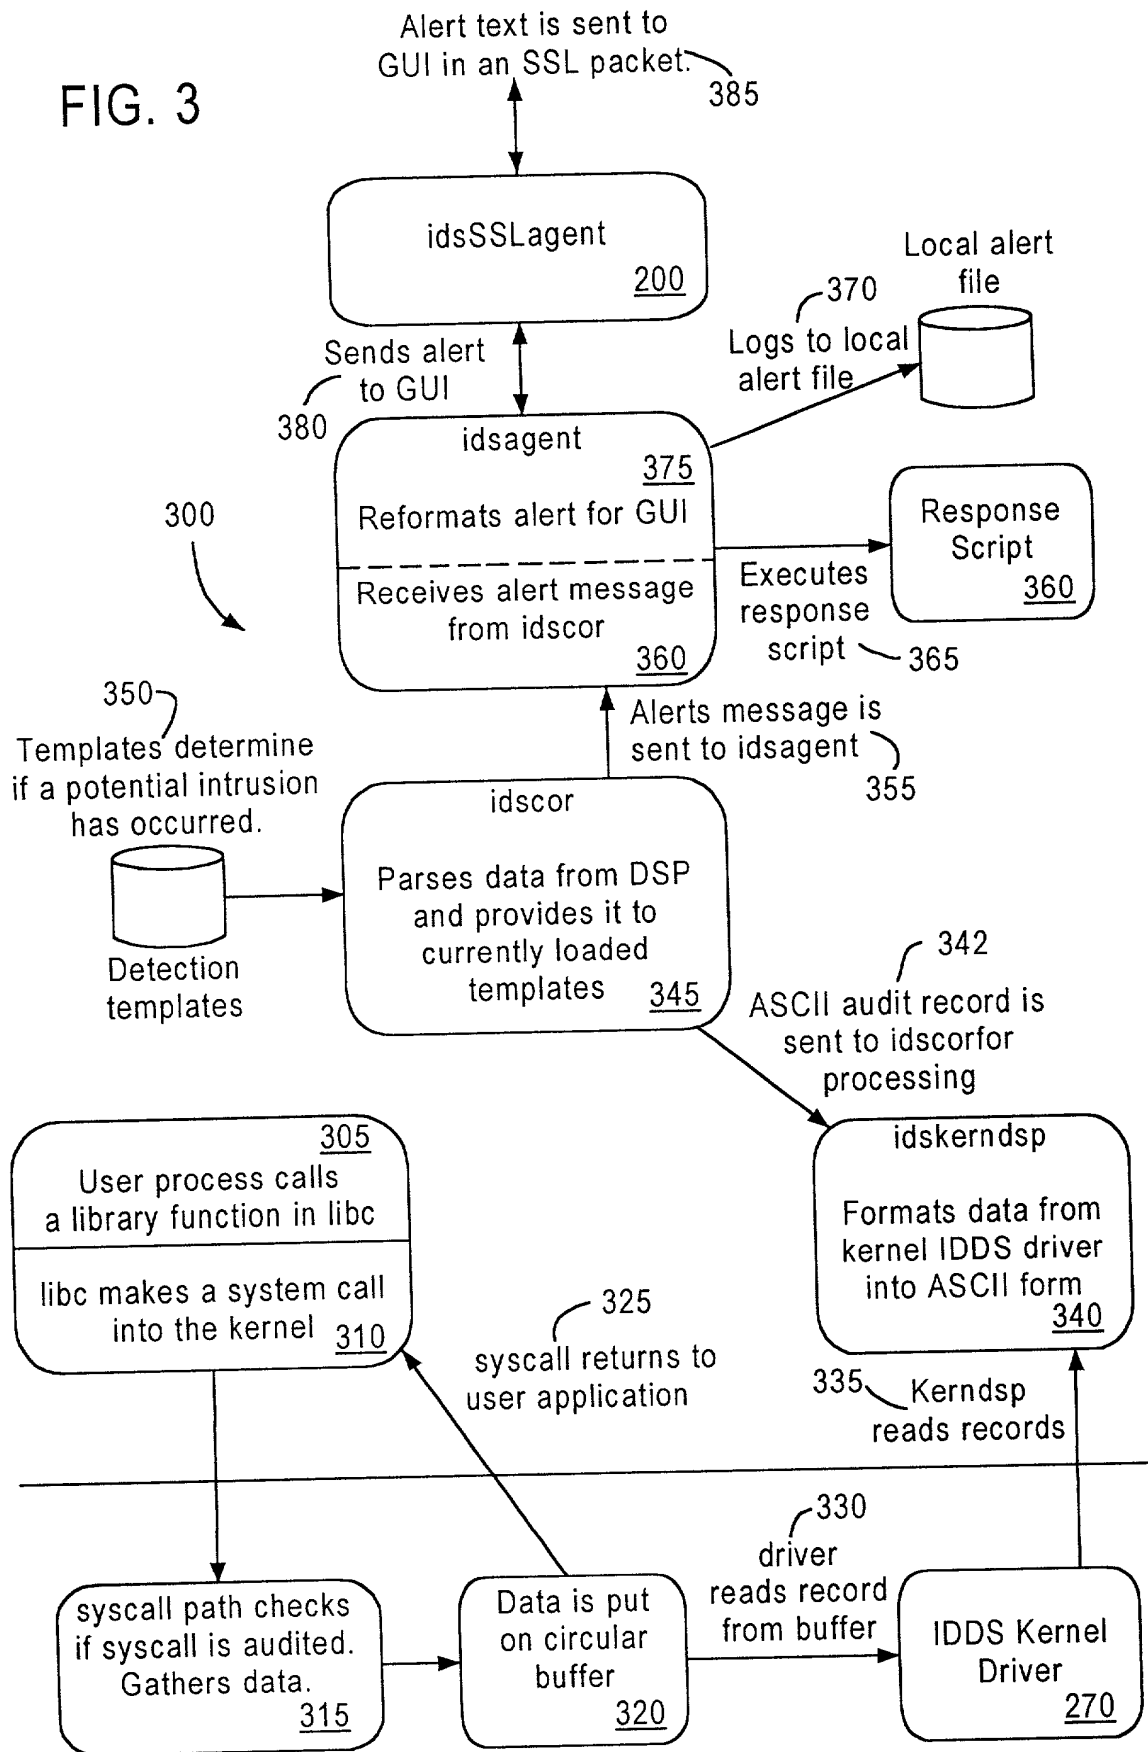

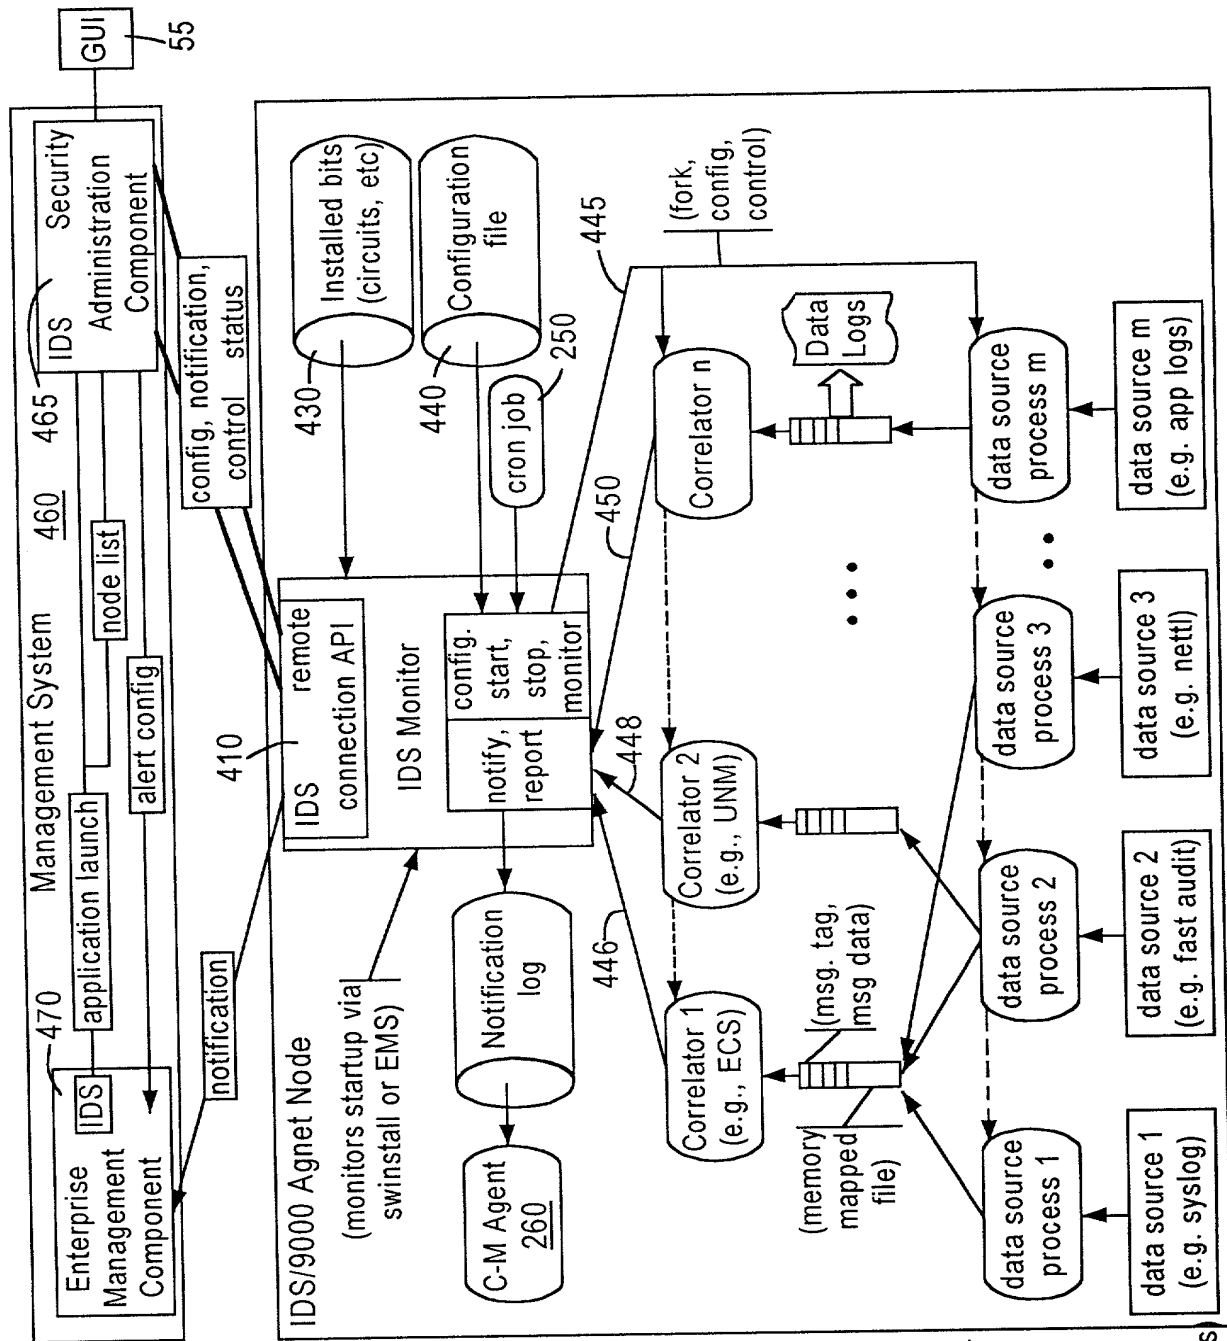

FIG. 4

Infrastructure

- Agent Monitor
- Remote connection

Operation/Control

- Installation
- Initialization
- Configuration
- Control/Status

Correlator

- ECS engine core
- Circuit/data control modules
- Messaging control
- Status/Error/Trace output
- Command input and dispatch
- Engine state dump

Data Source Processes

- Audit
- Syslog
- Network

Detection Patterns

- Kernel patterns
- Network patterns (future)
- Web server patterns (from logs)

FIG. 5
